

Numbers: Complete Numbers Sequence.

LO: To compare number sequences.

Reasoning:

How many different ways can you complete the number sentence?

$$3 + \underline{\quad} < 3 + \underline{\quad}$$

Max and Joe have both created their own number bonds.

Max said, "My total is larger because I have a 5 and a 4."

Joe said, "My total is bigger because I have 10 altogether."

Who do you agree with? Explain your answer.

Solve:

$4 + \underline{\quad} < 5 + \underline{\quad}$

$3 + \underline{\quad} < 6 + \underline{\quad}$

$7 + \underline{\quad} > 9 + \underline{\quad}$

$9 + \underline{\quad} > 8 + \underline{\quad}$

Spot and Explain the mistake:

<u>1st</u>	2 nd	<u>3rd</u>	<u>5th</u>
-----------------------	-----------------	-----------------------	-----------------------
